HOME FIRE PREPAREDNESS CAMPAIGN

Is your home at risk?

The American Red Cross is in the area to promote the Home Fire Preparedness Campaign and bring fire safety readiness to your home! Have your smoke alarm(s) tested and replaced, as well as, install new ones where you may not have had one. The first round of installs will take place soon so give Ken or Tony a call to sign up your family right away!

Disclaimer: By voluntarily signing up, you agree to have trained volunteers come into your home to provide the service.

Seven times a day, someone dies in a home fire.

Every 40 minutes, an injury from a fire is reported.

Nearly 1000 times every day, fire departments are called to home fires.

Our goal is to reduce the number of fire deaths and injuries in the United States by 25% between 2015-2020
