Access Services

You may receive a referral from your primary care providers for behavioral health services for issues related to Domestic and/or Intimate Partner Violence or Suicide Prevention, or you may decide to seek them on your own. The first step is to call.

An intake evaluation will be done. At that point, you and your case manager may discuss the risks, benefits, and options available to you for treatment. Those options may include other community services.

The Case Manager will help you make appointments for treatment you have chosen and with other resources as needed.

LEECH LAKE HEALTH DIVISION
MISSION STATEMENT

The Leech Lake Behavioral Health Program is integrated into our 6 primary care clinics with a mission to Decrease morbidity and mortality rates from accidental injuries or violence. We do this by providing assistance to clients/patients who are experiencing Domestic and/or Intimate Partner Violence and through addressing suicide prevention. Our goal is to support, resource and assist the client/patient with as many resources needed to help direct their road to wellness. We will strive for the well-being of our clients which includes Primary Healthcare, Behavioral Health Services and community resourcing.

Additional Support
Weekly Talking Circles

Weekly Talking Circles will be held for additional support for Domestic/Intimate Partner Violence survivors and a talking circle is used in the approach to prevent Suicide.

When: (Women’s—1st-3rd Monday) (Grief Support)—2nd-4th Wednesday) (Onigum—1st-3rd Tuesday)

Where: Health Division 2 Building 312 1st Street—Cass Lake
