The Leech Lake Flag flies in Chibaawaating (Grand Rapids, Minnesota).

On September 5, 2013 members of the Leech Lake Band of Ojibwe gathered in Grand Rapids (MN) to celebrate the raising of the Tribal Government Flag outside of the Itasca County Court House and the Grand Rapids Depot, which houses the Grand Rapids Area Chamber of Commerce.

A number of Grand Rapids and Surrounding community members also joined in the celebration: Students, Educators, Business owners, and political leaders were among the diverse crowd welcomed to the Itasca County Court House lawn by Professor Larry Aitken the day’s master of ceremonies.

Professor Aitken is an enrolled member of the Leech Lake Band. He is also the endowed chair and director of American Indian Studies at Itasca Community College and Leech Lake’s tribal historian. Mr. Aitken has worked to preserve the Aanishinaabeg identity both as a teacher and as a cultural practitioner.

Professor Aitken introduced Leech Lake Elder Mr. Mike Smith who conducted a special invocation in honor of the Flag Ceremony. He was joined by his helper and son Mr. Michael Smith Jr. and assisted by the Bug-O-Nay-Ge-Shig School Silver Eagle Drum Group.

After the invocation ceremony Mr. Aitken offered a short summary of the words spoken by Mr. Smith, explaining that “God, by many languages, allows us to do this” and that the pipe was lit for all.

Boozhoo my fellow band members, family & friends. I am, once again, very pleased to bring you another issue of my quarterly newsletter.

It is always exciting to discuss the accomplishments we make as a Tribal Government. This is why I look forward to the Band’s Quarterly Meetings. These meetings give us the opportunity to demonstrate the accomplishments we have made towards addressing the social, political and economic conditions of the reservation. They also provide a forum for consultation with our community members to address each issue.

Each quarter the Band works to fulfill the principle commitments of our Mission Statement. We are committed to the preservation of our heritage, promotion of our sovereignty, and the protection of our right to advance as
the people of Leech Lake will forever be our greatest stakeholders, which is why I am glad 460 tribal members participated in the half day event. The Band’s various agencies and their departments were also in attendance to provide information about their programs and services.

government programs are designed to support, promote, and enhance the general health and welfare of our people. They do this by addressing the many needs and concerns of the community, and the Band has been effective in funding for either an investment, or sacrifice of tribal resources.

On Thursday, August 22nd 2013 we celebrated the success of our fiscal year 2013 State of the Band Address – LLBO Stakeholders Meeting. The 2013 State of the Band Address allows us to demonstrate the impacts we are making on behalf of the Band’s accomplishments, which we have compiled in the Band’s 2013 annual report. The Band’s Annual report is an important tool that allows us to show our stakeholders… the people of Leech Lake.

On September 13, 2013 the Band was notified that we successfully submitted our application to the Federal government for a new building. The Band will distribute the tribal tax rebate on Friday, december 6th 2013. Students supported by the program are at different levels of education but many are also continuing their education in other ways as well. Each year the Band allocates hundreds of thousands in funding to the Leech Lake Tribal College, and we have just recently begun to offer internships in tribal administration. We are committed to supporting our tribal members as they increase their knowledge to the highest degree possible.

The Band is committed to the success of the Band’s accomplishments as an example of what we can achieve when we align the tribal administration’s principles by applying our resources responsibly. As a result we have realized a number of accomplishments, which we have compiled in the Band’s 2013 Annual Report. Leech Lake Nation Rebuilding Initiatives -
In May 2012 the Nation Institute and Bush Foundation facilitated a (GANN) "Building our nation" session with the LLBC. *Rebuilding native nations is more than just building a new economy that relies less and less on gambling. Rebuilding means just that, rebuilding. Taking a system that has been in place within a tribe/indigenous community for decades and reimagining it with checks and balances that the power base that exist most in the executive branch of the government to ensure that we have a governance system that our community citizens can trust and agree on. The process is based on a fixed and balanced decision-making process with cultural components, and not on political affiliation. It’s about restoration confidence.

* (Except taken from article written in June Edition of Delbahjimoni).

On the GANN session, the participating group of about 50 band citizens agreed on 3 tangible action steps. The first being the change of methods of providing assistance, next step was by law revision, and lastly was formal separation of enterprise from governmental structure. The first step went effect on July 1st 2012. The second step was the process to consolidate scattered assistance programs within the tuition. The last step was the creation of a consolidated assistance program. A program where it’s not just a reference to somewhere else, which can be conceived as passing the buck. The ultimate goal is to create program that consolidates scattered assistance programs within the tribal council and education. We have the power to create, a more efficient program, eliminate the gaming process when it comes to searching out programs for assistance, develop a better system of assisting tribal citizens. We believed that consolidation would better efficiency and ultimately allow us to further develop additional services to help keep people from falling through the cracks or lost in the shuffle. There are many kinks to smooth over but we are working diligently to improve services.

On September 17-19, we hosted the “Building our Nation” conference. The first day consisted of a powwow and informational feedback was conducted on 250-300 people, and there were 56 dance groups, 7-30, and 7-10 hourlong classes. Lunch and dinner were provided to the attendees. The next day was an educational session for the executive branch. Over 100 people were in attendance, including some seniors from the Blue-goose-a-go- go high School. Training was very in-depth, well received, and necessary for those in attendance to be prepared in the steps to taking our mission forward to a more progressive, inclusive, and sovereign nation.

Functional, inclusive, sovereign government. Key issues discussed were constitution and government reform, separation from MCT, separation of executive, legislative, and judicial branches, and redeveloping the role of the executive branch once we take up the task of constitution development.

The final day events were the LIC Summer and had over 250 people in attendance. The event was very constructive discussion that continued the dialogue from the Nation Building 101 training the day prior. There was unanimous support for redesigning the Local Indian Councils as a more relevant component of the tribal government. Those in attendance all agreed to revisit these efforts in the first week of December and put their ambitions on the table and their revisions in writing. This event was also covered by the local television station news, Laceland News.

The purpose of hosting the events of Rebuilding our Nation is to engage our community members and citizenship and start developing a shared meaning of the Rebuilding conversations. As we move forward in this process we will have many opportunities to come ahead and help frame what your government will look like. So I humbly ask that if you have any feedback or would like to be more involved in the process, please feel free to contact my office.

Assistant Living Facility -
Working along with the Meyers Group, LLC, the planning team continues to carefully plan and design our long-term strategy. The facility will be a long-term nursing assistance or help with daily living activities reside in safety. The elder care campus will be located on a beautifully wooded acre parcel adjacent to the campus in Cass Lake. After careful consideration and information gathering from tribally owned care facilities, the composition for the 52-unit facility is 6-memory care units, 2-assisted living units, 12-dual living units and 23 units each in units 2 and 3 complex that will provide units with expanded space for family and community. The large facilities will accommodate community and family gatherings and be operated through an agreement with the Leech Lake Elderly nutrition program. Grassy courtyards, safe walking trails and a secure perimeter will provide options to the elders and their families. A ceremonial groundbreaking is planned for mid-October and will be open to the community to share and participate in the event. Building construction is slated to begin in the very early spring. A team including staff from Leech Lake Tribal College, Sanford Health, Divisional Health, BHS and other educational partners will soon convene to initiate programming to ensure that as many Leech Lake Band citizens will have access to the benefits of higher learning. There will be many opportunities to be involved in the process of building this new facility.

Projects Underway -
While there have been quite a few construction projects taking place. As reported previously, there is the Multi Use Trail (Bike Path) along the Palace Drive that is shaping up quickly. Phase 1 is on schedule for completion this fall, and Phase 2 should be complete by spring/summer 2014. Also Leech Lake was awarded the ICDBG (Indian Community Development Block Grant) HUd grant to help fund construction of a new Mission Community Recreation Center. This accomplishment is putting Leech Lake one step further in building our cultural heritage. Two additional projects are the LLBO Government Center and the LLTC Library.

The Government Center is scheduled to be complete mid-October. The LLTC Library had its ground breaking in August 2013, and is scheduled to open in the fall of 2014 with a new facility to serve the community. This facility will provide wonderful space to enjoy the outdoors for elders and their families.

Block grant) HUd grant to help fund construction of a new Mission Community Center. With the addition of athletics at the college comes the need for facilities for the programs, but the center will also serve the communities at large for all recreational needs.

Homelessness and the Fight against Addiction -
One issue that is always talked about but is rarely prioritized, is homelessness. I think that not many are aware that the tribal council passed a resolution almost 5 years ago accepting and recognizing a 10-year plan to end homelessness. Often times we develop plans and then they remain on the book. Quite a few times in the last 10 years or so there been great planning teams that have developed plans for a treatment center on Leech Lake, but those plans have been put back on the shelf for one reason or another. So we are at a critical time in our efforts to address some of the more serious social issues here at Leech Lake. Currently we have certain funding streams that allow us an open hand in our ability to create a self-determined plan to ensure these plans are drafted out, reexamined, and followed through. These are important priorities, and must keep these issues at the forefront of our priorities at all times. In moving forward, there are many avenues that can be explored for various community treatment centers, wet house, transitional housing, homeless shelter, etc., please be on the lookout for these avenues and action is taken.

Boys & Girls Club Merge -
On August 1, 2013 a MOU was signed merging the Leech Lake youth division and the Wet Lake Youth division. Eliminating duplication of programs and bringing together the strengths of both organizations will help expand services.

Tribal Government Internship Program

On August 24th, 2013 we successfully completed the tribal internship
program. This program provides our Leech lake scholars with an opportunity to
expanding their knowledge while earning valuable experience.

The program was also created to attract leech lake scholars to careers in Tribal
Business. I have been committed to increasing our capacity to provide a variety of
specialized fields such as Health Care Administration, Business, and Finance. The
introduction of these fields is new to the Band and access to each of these professions
including the benefits of employment.

More information about the program can be found on my website, www.

YOU, THE BELOW-NAMED RESPONDENT, ARE HEREBY NOTIFIED that the Leech Lake Band of Ojibwe intends to proceed by default in the Leech Lake Tribal Court against you, to recover judgment for the collection of the fine(s), costs, and any other relief to which the Petitioner is entitled. 

THE COURT WILL NOT RESCHEDULE OR REOPEN THIS CASE.

You, the Respondent, are hereby notified that you must appear in person on January 15, 2013, at 2:00 p.m. at the courtroom located at the Facility Center, upper level, 16126 John Moose Drive N.W., Cass Lake, Minnesota 56633, to enter into a written consent to proceed by default and to answer the complaint or for failure to appear at a court hearing or for failure to follow court orders.

YOU ARE FURTHER NOTIFIED that your failure to appear in response to this summons is subject to proceedings for contempt of court pursuant to Tribal Code, Title I, Part V. The Court may find you in contempt for failure to appear at a court hearing or for failure to follow court orders.

YOU ARE FURTHER NOTIFIED that an initial Hearing in this matter shall be held in the upper level of the Facility Center in Cass Lake, Minnesota, with the hearing date to be announced.

YOU ARE FURTHER NOTIFIED that the Petitioner is located in the offices above the Che-We Mini Mart, mailing address is 115 Sixth Street N.W., Sauk City, Wisconsin 53956.

YOU ARE FURTHER NOTIFIED that a written answer is due within thirty (30) days of the date of the first publication of this notice in the Delbah/Mom and to have entered on the Leech Lake Tribal Court or a default judgment may be entered against you.

YOU ARE FURTHER NOTIFIED that failure to appear at the initial hearing in this matter is not a waiver of any rights of the Respondent, but may be considered a default by the Court in the upper level of the Facility Center in Cass Lake, Minnesota. If you, the Respondent, do not appear at the initial hearing, the Court on this matter, the Court may find you in default and enter an Order of Contempt against you.

DATED this 24th day of September, 2013

The Positive Indian Parenting curriculum was developed by the National Indian Child Welfare Association (NICWA).
The training draws on the cultural strengths of Native American child rearing and has been developed through extensive consultation with tribal elders, Native social welfare professionals and parents. Sessions focus on the positive values of the traditional ways as a successful parenting model.
