New Bug-O-Nay-Ge-Shig High School to be Completed in December!

Senators Amy Klobuchar and Al Franken visited our Leech Lake School in early May after the announcement in early April that the BIE subsidized school was awarded full replacement funding. After the initial announcement of the funding was announced the Interior Department sent staff to meet with Leech Lake leadership to go over some of the details of the process.

The meeting began with an explanation by Interior staff stating that there are still schools from 2004 that were selected for funding and replacement that have yet to finish the planning process, let alone begin to build. After this statement the room fell silent.

Following this revelation there were several questions regarding the Bug-O-Nay-Ge-Shig High School from Leech Lake Leadership and the timeline for completion. BIA Deputy Director, Office of Facilities, Property, and Safety Management, Walter Keays, mentioned that the Bug-O-Nay-Ge-Shig High School is scheduled to be fully completed by Christmas! The room fell silent again.

“Obviously we are overcome with happiness that our kids could be in a new state of the art facility, such in this short time period, said Chairwoman Carrie Joon. “This school could become the necessary element that we need to give our students the best education possible.”

The new facility is supposed to be linked to the east end of the current facility so students will not have to endure frozen walks through the snow to get to class. A new library, new media center, and new music room with space for science, Technology, Engineering, and Math (STEM). The new school is scheduled to encompass 45,000 square feet. The school’s new design will allow for more natural light, an open floor plan and increased collaboration. We need to focus on professionalism to take care of our children in our schools,” said Washington.

This was a triumphant moment that culminated in a grand prize with several lessons learned along the way when it comes to working with our Representatives in the legislature to hear you, it will be quite difficult to ignore you. It is easy to ignore a voice that isn’t heard, or even loud enough, but if you force your voice to be heard, you will have the opportunity to make a difference.

I learned along the way when it comes to working with our Representatives in the legislature to hear you, it will be quite difficult to ignore you. It is easy to ignore a voice that isn’t heard, or even loud enough, but if you force your voice to be heard, you will have the opportunity to make a difference.

I appreciate support after reading my goals for our school and our students. I’m running for a position on the Bug-O-Nay-Ge-Shig School Board because I believe in the school, the teachers and the staff. It is important to me that this school has had a positive impact on my life growing up, and I want to help make it a place where our children can also have good experiences. I believe it is important for our children to not only receive a quality education, but to also learn their language and culture.

These will help them to survive today and to be strong leaders of tomorrow. I hope to work toward:

Teacher and student retention

more support for culture and language

working together with the LIEC/PSAC

more support for Ngaaime Immersion

I’d appreciate your support and vote for District 3 school board on Tuesday, June 14, 2016.

Bonnie J. Rock

I am running for a position on the Bug-O-Nay-Ge-Shig School Board and would appreciate support after reading my goals for our school and our students.

I am a member of the School Board, I will be able to continue advocating for our youth. Every child deserves to receive the best education possible. I would be the voice and advocate for our students, faculty, parents, and community.

I will welcome input, ideas and constructive criticism. Any parent, student, or faculty member for the Bug-O-Nay-Ge-Shig School. I have a vested interest in making sure our students and faculty have a quality education, but to also learn their language and culture.

These will help them to survive today and to be strong leaders of tomorrow. I hope to work toward:

Teacher and student retention

more support for culture and language

working together with the LIEC/PSAC

more support for Ngaaime Immersion

I’d appreciate your support and vote for District 3 school board on Tuesday, June 14, 2016.

Eugene “Ribs” Whitebird

My name is Eugene “Ribs” Whitebird. I am a lifelong resident of Leech Lake and have always been looking for a way to give back to my community. I am now the upcoming Housing Authority Board. I was on the Housing Authority Board 2006-2008 and worked for the Housing Authority as the housing manager for the Leech Lake Band of Ojibwe. After being out of housing for nearly 10 years, I returned to Leech Lake. Each year, as a member of the Housing Board, I look forward to seeing what the Housing Authority has to offer our communities.

I am proud of my cultural heritage and have always been in tune with my culture. I would like to see our school be more active because his father graduated from there and the school helps my son stay in school. I have two children attending Bug O Nay Ge Shig School. We are very happy with the school and our children love it. I want to work with the students, helping them with their education and it was very rewarding when working with a student, when you see the “light” come on in their head at the right time when they made the connection, they get it. I was a student in 1997-1998 and worked for the Housing Authority as a data entry specialist. We are now in the process of adding a new building to the current building. My goal is to see our school be more active and be able to accommodate our students.

The Leech Lake Reservation 2014-2019 CEDS shows, in general, there is a shortage of affordable housing. Affordable housing is essential to the well-being of our community. A lack of affordable housing can lead to increased poverty, decreased health outcomes, and decreased economic opportunities. Affordable housing is not just a matter of keeping people in their homes, but also a matter of keeping them healthy.

Leech Lake has 610 low-rent/home ownership units located throughout the reservation. The Native American Housing Assistance and Infrastructure Act (NAHAI) program is supported by an annual grant from HUD. Leech Lake currently has 340 units in the program. The federal Housing Tax Credit program provides for single family units.

Items on the agenda include: Planning, programs, and policies. The plan is to increase the number of homes by 10% over the next five years. We are currently working on a three-year plan to increase the number of homes by 10% over the next five years.

Three goals were addressed in the plan: Systems Improvement—Create policies that will assist in keeping our communities healthy; Education and Wellness—By using current, relevant information and data to educate the broader community. 1. Education/prevention service coordination—Increase awareness and education of the community for the importance of health and wellness for their community. 2. Resource Development—Create collaborative partnerships and seek and develop new financial, and housing resources to generate additional housing units and support services. 3. Community Engagement—Continue to develop community engagement to ensure that our communities thrive.

Leech Lake maintains five master lease keys for Band members in Conifer Estates. Housing dissatisfaction on the Leech Lake Band of Ojibwe is a significant problem on the reservation. As a member of the Housing Authority, I am committed to finding solutions to this problem. We are currently working on a three-year plan to increase the number of homes by 10% over the next five years. We are currently working on a three-year plan to increase the number of homes by 10% over the next five years.

Leech Lake Housing Authority Board of Commissioners for 3 terms for Dist. I area. If you have experience now is being a staff member, I have seen firsthand the kind of community we are building with our new homes, I seen firsthand how they are managed, how they are maintained and how the Rules & regulations have a big part in making sure we are building housing on the reservation. If I am re-elected, I will use my experience to the fullest of my ability and continue to make sure our communities thrive.

Melissa Bowstring

B) The dream is to have a home for myself and my children. The dream is to have a place to raise my children and enjoy the outdoors. The dream is to have a place where I can feel safe and secure. The dream is to have a place where I can be free from the stress of daily life.

On the reservation, I have lived for the past 25 years. I have been a part of the Housing Authority for 25 years. I have always been active in my community and have always been an advocate for the underprivileged.

I am running for the school board because I believe our children are our future. I believe that by working with the students, parents, and the community, we can build a better future for our children. I believe that by working with the students, parents, and the community, we can build a better future for our children.

I want to see our school be more active because his father graduated from there and the school helps my son stay in school. I have two children attending Bug O Nay Ge Shig School. We are very happy with the school and our children love it. I want to work with the students, helping them with their education and it was very rewarding when working with a student, when you see the “light” come on in their head at the right time when they made the connection, they get it. I was a student in 1997-1998 and worked for the Housing Authority as a data entry specialist. We are now in the process of adding a new building to the current building.
Leech Lake 6th grade girls headed for the Pascasset State tournament

The Leech Lake youth basketball season is winding down after a long winter/ spring season. And the Pascasset tournaments are usually the final tourneys for most of the young Lady Lakers. Two local teams, one from Leech Lake and one from Cass Lake, battled for the support of the Pascasset tournament, which usually field strong teams. Leech Lake teams from Ball Club and Cass Lake teamed up to travel. Team members include guards Taya Frazier, Antoinette Bowering, Arizona Doer, Amma Ludake, and Tysha Livingstone. Winging it are Mya Reyes, Kionna Johnson, and Jen Ringel. Posts Tonni Jones, Darcy Howard, and Jade Wakahb. The goal is to qualify for the State tournament or the Minnesota Invitational Tournament (MIT). To receive an invitation to state, a team must win two regional games. The Leech Lake 6th grade girls received two invitations to the state tournament. They won Region 7 A and titles, and will represent B at the regional tournament in St. Cloud on April 21st. If they win their way to the State tournament, they will be the first Leech Laker girls to go to the State tournament in Minnesota. For an invite to the MIT, each team must win two games at regions. This year, 8 region titles in Minnesota. For an invite to the MIT, each team must win two games at regions.

Leech Lake Back-to-School Students

Leech Lake Back-to-School Awards are given to students who exhibit qualities of Community – Hope – Healing. We will share more stories and photos in our blog and we hope you will join in this journey.

Leech Lake Diabetes Education Program Merits ADA Recognition

The Leech Lake diabetes self-management education program in Cass Lake has been awarded continued Recognition from the American Diabetes Association. The program was originally Recognized in March of 2012. This recognition is awarded for quality diabetes education services to the patients it serves. The program is eligible for recognition because it meets the National Standards for Diabetes Self-Management Education Programs. Programs that meet the Recognition status have a staff of knowledgeable health professionals who can provide state-of-the-art information about diabetes management for participants.

Self-management education is an essential component of diabetes treatment. One consequence of compliance with the National Standards is the greater consistency in diabetes education for people with diabetes. The participant in an ADA Recognized program will be taught, as needed, self-care skills that will promote better management of his or her diabetes treatment regimen. All approved education programs include: self-management education; diabetes disease process; nutrition management; physical activity; medications; monitoring, preventing, detecting, and treating acute complications; preventing, detecting, and treating chronic complications; through risk reduction; goal setting and problem solving; psychological adjustment; and problem solving. The program is also provided in a cost-effective way, and personal management.

Assuring high-quality care for patient self-care is one of the primary goals of the Education Program. Through the support of the health care team and increased awareness and knowledge of diabetes, the patient can assume a major role in the management for his/her diabetes management. Uncountable hours are spent in education by health professionals. Diabetes of all types may be prevented through self-management education.

The process gives physicians a standard by which to measure the quality of the services they provide, commented Caroline Robinson, RN, CDE. “And, of course, it helps the consumers to identify these quality programs.”
2016 Graduation
AOB Head Start, Bug-O-Nay-Ge-Shig High School and Leech Lake Tribal College

Congratulations to all the 2016 Graduates! May your journey be fulfilled with success and enjoyment of what the future may hold for you. The Leech Lake Band of Ojibwe would like to say thank you and to always follow your dreams.

Deer River King Elementary Pow-wow

"Honoring Our Elder" Sponsored by Leech Lake Housing
Brady Fairbanks returned to Leech Lake Tribal College as Lakers Men's Head Coach

The Leech Lake Tribal College welcomes back the son of the Tribal Colleges program, Brady Fairbanks, returning as the head coach of the Lakers Men’s basketball program. Brady, a man with an educational leave to Haskell and earned his bachelor’s degree, serves as a testament across the Midwest,” said Coach Fairbanks. “Coach Rod Northbird will continue to have a role with the team.

Recruit from across the country. It should be very good basketball as we compete to host travel exhibition about Native concepts of health and illness in 2015.

The LLTC Lakers will host at the Cass Lake-Bena High School gymnasium. If you want to support the Lakers or learn more about Coach Fairbanks and his award-winning program, please contact the College at (218) 355-4220 and/or visit the website at www.lltc.edu.

The Leech Lake Tribal College is a two-year higher education institution providing accredited education grounded in Anishinaabe values.

2015-2016 Leech Lake Senior Princess Lori Martin-Kingbird

Brother, My name is Wahana-Gizigo-S composed of traditional sports and culture and the Ojibwe language. It is also a place where local talents can transition into College LLTC is a two-year higher education institution providing accredited education grounded in Anishinaabe values.

Native American Archery Presentation

Jim Jones, a Leech Lake and a graduate of Bug O Nay Ge Shig School in the 1980s, recently gave an archery presentation to history classes at both Bug O Nay Ge Shig School, Cass Lake-Bena High School. He spoke about our local history and brought in artifacts that had been found in northern MN.

He also talked about the importance of the Native American Protection and Repatriation Act of 1990 which returned sacred objects back to the tribes, and in some cases, returned remains to the tribes. Under Jim’s direction, over 3,000 human remains have been returned to tribal nations and restored.

Jim encourages the students to continue their education after high school. Miigwetch! for sharing with us.

KENNETH GORDON TEJON

K e n n e t h Gordon Tejón was born in Cass Lake, MN on April 30, 1958. He began his spiritual journey unexpectedly on Monday, May 2, 2016 from the Hennepin County Medical Center in Minneapolis, Minnesota. Ken was in his eighty-eighth year. He passed away peacefully on April 30, 2016, at the age of 58.

He was a good friend and a hard worker who enjoyed spending his time with his family and friends. Ken loved hunting, fishing, and loved to go ricing and being out in nature. He was a good shade tree mechanic and also loved spending time with his family, going to pow-wows and helping people in need. He did a stint as a wildland firefighter, both helping to lay Ken to rest are his family, his nieces and nephews.

Those welcoming Ken to the spirit world are his parents; James and Betty, uncles; Phillip Blakely, Norman Blakely and Simon Blakely, Jr., aunt; Linda Nunez-Blakely, his grandparents, cousins, relatives and friends.

His remaining sisters are his beloved brothers; James Tejón, Jr. and Kevin Tejón, Jr. His nieces are振es; Beverly (Jon) Kamrowski, Linda Tejón and his nephews; Jay Blakely and Barbra Blakely of Cass Lake, so that the Palace Casino Employees. Interment will be in the Fineday Family Cemetery in the Chippewa Bible Cemetery at Oak Lake. Arrangements will be by the Tribus Funeral Home of Cass Lake.

Ken liked the outdoors, hunting and fishing were the things he liked most. Springtime was his favorite season. Ken was a good shade tree mechanic and also liked to plant seeds in the soil. He really enjoyed being with his family, his nieces and nephews.
