**LEECH LAKE CHILD WELFARE**

- I have conducted a preliminary investigation of the above-referenced individuals. The case has been screened out for child protection issues and a copy of the Petition given to the Home Study Worker.
- I have conducted a child protection screening, and there is:
- Previous child protection history that would bar the petitioner from caring for children.
  - Previous child protection history that would not bar the petitioner from caring for children. Please advise if the court wishes Social Services to proceed with a home study.
